REGISTERED WOODS & IRONS

WOODS . . . Designed specifically for the lady golfer. Marilynn Smith Registered woods have the familiar look of conventional woods, and yet shafts are moved forward to position the golfer's hands more in line with the center of the wood face. This is the exclusive Centre-Powered feature that reduces the twist or "torque" of the wood head on the down swing, increasing the golfer's accuracy and control. Each set matched by Spalding's exclusive Syncro-Stroke set-matching process. Select Persimmon Wood heads in exciting new Champagne Gold color are Hydro-sealed for lifetime durability. New high-power Titanite face insert in "Diamond" design. Super Sole Plates for finest heel-to-toe wood head protection.

IRONS . . . Marilynn Smith Registered Irons feature a contemporary new styling that distinguishes this club from all others. Iron numbers have been moved to the toe for quick and easy identification. Handsome "frosted" wedge back design and dignified Blue and Gold stamping add to the truly regal appearance. The classic Spalding blade outline is retained but skillful reshaping has moved the center of gravity slightly forward - even nearer the actual center of the blade face. Forging contours and beveled leading edge are precisely arranged to facilitate crisp, accurate shot-making from fairway or rough. Exclusive Reverse-Threaded shafts. Tough 3-stage Perma-Finish chrome plating produces a mirror-like finish of unsurpassed beauty and durability.

HOLLEY-ST. ANDREWS

*GUARANTEED INDESTRUCTIBLE without the loss of distance performance! No matter how you slice it — hook it — chop it — IT CANNOT BE CUT OR CHIPPED.

If you are looking for a ball that gives you the ultimate in high quality, plus long distance, then Holley St. Andrews, the original solid-state ball, is the ball for you. You get more accurate putting and truer flight because it is manufactured with precision tolerances far greater than those of competitive balls.

The St. Andrews ball has been made to meet the high standards required by the Scots when they play the world famed St. Andrew course in Scotland.

***If you damage a Holley St. Andrews during play, we'll give you three, FREE of charge.**

YOUR COST .....**$8.00 per dozen**

HOLLY SOLID RANGE BALL

The Holly solid range ball is perhaps the finest range ball for the money available on the market today. This ball will give you the maximum durability for your money. This ball is unconditionally guaranteed and carries a factory warranty of three for one in the event that ball breaks or chunks. Available in green stripe and name of range at no charge in lots of 100 dozen or more.

YOUR COST .....**$4.25 per dozen**

CUTLESS M-20

Here is the world's first *perfect* range ball! The Cutless M-20 is a solid state golf ball molded in one piece with such precision that there is no tolerance for error, in roundness or material. Unlike the conventional ball with a core and rubber windings (they stretch and lose compression), the Cutless M-20 will *never* go out of round. In fact, we guarantee they'll never cut, crack, or chip. They won't even lose their color! Any Cutless M-20 that fails to live up to these claims will be replaced at no charge by the Chemold Corporation.

We've saved the best part for last. The Cutless M-20 is priced much lower than the regular range ball!

YOUR COST .....**$4.00 per dozen**

INTRODUCING A NEW EXCLUSIVE TURF BRUSH

The MONSANTO COMPANY with more than 15 years of man-made fiber producing experience, has developed a surface of NYLON material simulating a near-perfect grass effect.

This new surface is bonded to a backing of resilient padding to insure longer life.

PAR GOLF has embedded and anchored this new surface into an all-live rubber molded base with a special adhesive, thus creating what we believe to be the finest TURF BRUSH available today.

For use with Combination Mats, Par-3 Mat and College Mat Set. Can also be used on any surface — with or without Range Tee Mats — will not mar or scratch polished floors. Resistant to fading, mildew, and dries quickly.
